ENLIGHTENED INDULGENCE!

Shafi Gluco Chem's signature Rice Syrups are made from organic and non-GMO rice sourced carefully from our own fields. These highly nutritive and functional sources of carbohydrates are most preferred by the food, beverage, and pharmaceutical industries. They are recognized for their benefits of being a healthy alternative to sugar, being hypoallergenic & sulfite-free, and having exceptional functionalities for all formulations.

At Shafi Gluco Chem, we have an assortment of Rice Syrups to meet all your application requirements and fulfill your consumer needs. With a world-class production facility; state-of-the-art R&D capabilities; and a reliable supply chain we are ready to help you succeed and get to market faster.
